

Acknowledgment statements for manuscripts which use data from the BCSC or BCSC-related projects

BCSC AND RELATED ACKNOWLEDGMENTS – CURRENTLY FUNDED STUDIES

All current manuscripts that use BCSC data and/or are reviewed by the BCSC Steering Committee must cite the P01 grant number (P01CA154292). Additionally, manuscripts using BCSC data from 2010 forward must also cite the Vermont PROSPR grant number (U54CA163303), which funded Vermont Breast Cancer Surveillance System data collection for the P01. Manuscripts that use BCSC data collected by the BCSC ADVANCE study (from ~2014 forward) must cite the BCSC ADVANCE grant number (PCS-1504-30370). If Chicago registry data are included, the Chicago AHRQ grant number (R01 HS018366-01A1) should also be cited. Other ancillary grants may also need to be recognized. When appropriate, acknowledgements should distinguish between sources that funded the research versus data collection:

1. IF THE PAPER IS FUNDED MAINLY BY THE P01 (ORIGINAL OR RENEWAL):

"This research was funded by the National Cancer Institute (P01CA154292). Data collection for this work was additionally supported, in part, by funding from the National Cancer Institute (U54CA163303), the Patient-Centered Outcomes Research Institute (PCS-1504-30370), and the Agency for Health Research and Quality (R01 HS018366-01A1). The collection of cancer and vital status data used in this study was supported in part by several state public health departments and cancer registries throughout the U.S. For a full description of these sources, please see: <http://www.bcsc-research.org/work/acknowledgement.html>. All statements in this report, including its findings and conclusions, are solely those of the authors and do not necessarily represent the views of the Patient-Centered Outcomes Research Institute (PCORI), its Board of Governors or Methodology Committee, nor those of the National Cancer Institute, the National Institutes of Health, or the Agency for Health Research and Quality. We thank the participating women, mammography facilities, and radiologists for the data they have provided for this study. You can learn more about the BCSC at: <http://www.bcsc-research.org/>."

2. IF THE PAPER IS FUNDED MAINLY BY ADVANCE:

Manuscripts that include ADVANCE data need to include the PCORI grant number: PCS-1504-30370, as well as the P01, the Vermont PROSPR grant, and Chicago's AHRQ award numbers.

"Research reported in this work was funded through a Patient-Centered Outcomes Research Institute (PCORI) Program Award (PCS-1504-30370). Data collection for this research was additionally supported by the Breast Cancer Surveillance Consortium with funding from the National Cancer Institute (P01CA154292, U54CA163303) and the Agency for Health Research and Quality (R01 HS018366-01A1). The collection of cancer and vital status data used in this study was supported in part by several state public health departments and cancer registries throughout the U.S. For a full description of these sources, please see: <http://www.bcsc-research.org/work/acknowledgement.html>. All statements in this report, including its findings and conclusions, are solely those of the authors and do not necessarily represent the views of the Patient-Centered Outcomes Research Institute (PCORI), its Board of Governors or Methodology Committee, nor those of the National Cancer Institute or the National Institutes of Health. We thank the participating women, mammography facilities, and radiologists for the data they have provided for this study. You can learn more about the BCSC at: <http://www.bcsc-research.org/>."

3. IF THE PAPER IS FUNDED MAINLY BY SNOW:

Manuscripts that include BCSC-Medicare linked data from the 2018 linkage need to include the SNOW grant number: 1R01CA207361-01A1, as well as the P01, ADVANCE, EMPRESS, and the Vermont PROSPR grant.

"This research was funded by the National Cancer Institute (1R01CA207361-01A1). Data collection for this work was additionally supported by the Breast Cancer Surveillance Consortium with funding from the National Cancer Institute (P01CA154292, U54CA163303, R01CA149365) and the Patient-Centered Outcomes Research Institute (PCS-1504-30370). The collection of cancer and vital status data used in this study was supported in part by several state public health departments and cancer registries throughout the U.S. For a full description of these sources, please see: <http://www.bcsc-research.org/work/acknowledgement.html>. All statements in this report, including its findings and conclusions, are solely those of the authors and do not necessarily represent the views of the Patient-Centered Outcomes Research Institute (PCORI), its Board of Governors or Methodology Committee, nor those of the National Cancer Institute or the National Institutes of Health. We thank the participating women, mammography facilities, and radiologists for the data they have provided for this study. You can learn more about the BCSC at: <http://www.bcsc-research.org/>."

BCSC HISTORIC PROJECTS AND ASSOCIATED GRANT NUMBERS

Project Title	Primary Grant Number	When to Cite
SIMBA	PCORI: CE-1304-6656	If manuscript includes data from the SIMBA project.
EMPRESS	NCI: R01CA149365	If manuscript includes EMPRESS data. At this time, this includes any studies using the 2011 BCSC linked Medicare claims data.
BPATH	NCI: R01 CA140560	If manuscript includes BPATH data. Should also include the Vermont and New Hampshire registry grant numbers (U01CA86082, U01CA70013). Additionally, please add the K-05 grant (K05 CA104699) if a student or junior faculty member is involved in writing the paper.
AIM	American Cancer Society: SIRSG-07-271 SIRSG-07-272 SIRSG-07-273 SIRSG-07-274 SIRSG-07-275 SIRGS-06-281 SIRSG-09-270 SIRSG-09-271	If the manuscript includes AIM data or test sets.
FAVOR I	AHRQ: R01HS010591	If manuscript includes FAVOR I data. Must also include acknowledgments for SF, VT, and NM (U01CA86082, U01CA63736, U01CA63731).
FAVOR II	AHRQ: R01CA107623	If manuscript includes FAVOR II survey data or volume data
Colorado Mammography Advocacy Project	NCI: U01CA63736	If Colorado registry data are included in the manuscript.
New Mexico Mammography Project	NCI: U01CA069976	If New Mexico registry data are included in the manuscript.
BCSC Research Resource (aka BCSC Contract)	NCI: HHSN261201100031C	If manuscript includes only data from 2009 or earlier. <i>(Note: If any P01 data were used (i.e. data from 2010 or later), cite the P01 instead. See item 1 on first page.)</i>
ACS Longaberger	ACS: ACS 15922 #NHLONGGGBR	If manuscript includes abstracted data on screening ultrasound, include the following sentence: "This work was supported by the American Cancer Society through a gift from the Longaberger Company's Horizon of Hope Campaign (ACS 15922 #NHLONGGGBR)."

Additional Notes for all BCSC grants:		
1.	If cancer and/or vital status data are not included, remove the following sentence or parts of the sentence, as applicable. Note: if the manuscript includes sensitivity and specificity, or looks at stage distribution, then it uses cancer registry data and you should leave the statement in.	"The collection of cancer and vital status data used in this study was supported in part by several state public health departments and cancer registries throughout the U.S. For a full description of these sources, please see: http://www.bcsc-research.org/work/acknowledgement.html ."
2.	For a paper that is related to a main BCSC grant but does not use any BCSC data, the authors should include the P01 and/or ADVANCE number in their acknowledgements but they do NOT need to mention the BCSC by name.	"This research was supported by funding from the National Cancer Institute (P01CA154292 and U54CA163303) and/or a Patient-Centered Outcomes Research Institute (PCORI) award (PCS-1504-30370)..."
3.	IRB approvals and other protections (use if required by the journal): For all acknowledgments, if the journal requires information about IRB approvals and other protections please include the recommended wording:	"Each BCSC registry and the Statistical Coordinating Center (SCC) have received institutional review board approval for all study procedures, including passive consenting processes (three registries) or a waiver of consent (three registries and the SCC) to enroll participants, link data, and perform analytic studies. All procedures are Health Insurance Portability and Accountability Act (HIPAA) compliant. All registries and the SCC have received a Federal Certificate of Confidentiality and other protections for the identities of women, physicians, and facilities who are subjects of this research."
4.	Contributions of BCSC as a whole	Include it in the title or add "...for the Breast Cancer Surveillance Consortium" to the end of the list of named authors.
5.	Any paper using shared BCSC data (i.e. a DR), should cite the P01, even if P01 data not directly used. P01 still funds tracking & review efforts for the proposal/manuscript.	"Data sharing efforts for this study were supported by the National Cancer Institute-funded Breast Cancer Surveillance Consortium (BCSC) (P01CA154292)"
6.	Publicly available datasets, CISNET papers, or other manuscripts using model inputs created from BCSC data may use a shortened acknowledgment	"Data collection and sharing were supported by the National Cancer Institute-funded Breast Cancer Surveillance Consortium. You can learn more about the BCSC at: http://www.bcsc-research.org/ ."
7.	Language for posters	"Data collection was supported by the Breast Cancer Surveillance Consortium. More information about the BCSC is available at http://www.bcsc-research.org/ ."
8.	Language for presentations	"Data for this study were obtained from the Breast Cancer Surveillance Consortium. More information about the BCSC is available at http://www.bcsc-research.org/ ." Note: Add additional grant numbers (i.e. P01 & VT PROSPR, ADVANCE, AIM etc.) as applicable for posters and presentations.
